Retire Vesting Questions

SCTA has received calls regarding the new vesting rules if the agreement passes. By contract, a year of vesting includes any year where the teacher receives a Board Approved Leave. That means that if a teacher takes a family leave act or parental leave or personal convenience leave or any leave that is board approved, that year counts as a year for earning life benefits.

Pay Cut Questions

The Bee called the agreement a pay cut. Yes teachers would contribute funds but the annual salary will not be reduced. That means that all STRS contributions and value will remain the same. Also, the District will continue to earn ADA average daily attendance dollars keeping the schools open.
